DISPOSAL OF GREEN WASTE ON THE ESTATE

Residents must please ensure that their green (or garden) waste is disposed of in a responsible manner. Green waste includes organic matter such as plant clippings, cut grass, and other materials originating from the garden.

The HOA reminds residents of the following guidelines for ensuring that green waste is disposed of correctly:

- The compost site on Watervliet Farm is designated for green waste only and may not be used as a general dump site.
- The facility is not equipped to handle tree stumps, large branches or hard woody prunings and residents must make arrangements to have these removed from the Estate.
- If green waste is taken to the compost site in plastic bags, the bags must be emptied at the site and then removed.
- If residents make use of a landscape contractor or garden service, residents are responsible for ensuring that any garden waste is removed from their property by the service provider and taken to the green waste site or removed from the Estate where necessary.
- Private garden staff should be made aware of what constitutes green waste and how it should be disposed of.
- Please note that Drakenstein Municipality will not remove garden waste left out on Wednesdays; they only collect household waste and recycling.

Any questions in this regard should be referred to the HOA at info@pvhoa.co.za

PEARL VALLEY GOLF ACADEMY

Why Children Should Play Golf

At the Pearl Valley Junior Academy, they believe that golf is an ideal sport for children of all ages and ability levels. If your child wants to learn to play golf in a fun and supportive environment, they have an exciting and informative junior golf program just for them!

When it comes to junior golfers, the Academy firmly believes that exceptional performers are made, not born. The key to success lies in the quality and quantity of practice. Their junior programs are designed to provide ample opportunities for enthusiastic young golfers to practice in a fun-filled group setting, under the supervision and guidance of their experienced coaching team. The juniors participate in weekly skills challenges or tasks that help test and enhance their specific skill levels.

Why do the Academy consider golf to be an excellent choice of sport for juniors?

- Safe and Positive Environment: The golf course and driving range provide a secure space where juniors can express themselves freely. Through their group sessions, young golfers learn the importance of following rules to ensure everyone's safety while having a great time. Golf helps teach them right from wrong in a supportive and secure environment.
- Minimal Risk of Injury: Golf is a non-contact sport, significantly reducing the chances of serious injuries. Parents can have peace of mind knowing that their children are engaging in a sport with a low risk of physical harm.
- Building Friendships: Golf has the unique ability to bring children from different schools, golf clubs, and even provinces together, fostering lifelong friendships. The golf course is an ideal place to make new friends, as everyone shares a common interest. Playing golf as a junior helps create friendships that can last a lifetime.
- Family Bonding and Outdoor Recreation: Golf offers families an excellent opportunity to spend time together outdoors, enjoying nature and getting some exercise. Parents can practice and play alongside their children, fostering a sense of togetherness.

There are monthly competitions where juniors have fun playing while their parents either caddy or cheer them on from the sidelines. Golf is a sport for everyone, regardless of size, strength, or speed. Golf champions come in all shapes and sizes, and unlike many other sports, you can continue playing golf throughout your entire life. Remember, it's never too early to get started!

The Academy's focus is to provide children with the best possible platform to achieve their full potential. Success in golf can be measured and achieved in various ways. Some may aspire to compete at the highest levels of amateur and professional golf, while others simply want to enjoy golf as a recreational activity. They offer opportunities to fulfill all these goals.

CS BIOKINETICISTS

Kids' Athletic Development:

The period between ages 9 and 12 is crucial for a child's motor development. At this stage, children are developmentally prepared to learn fundamental sports abilities that form the basis of their athletic growth.

Biokinetics for kids promotes a lifelong healthy lifestyle, particularly when introduced at a young age. It encompasses physical education, which aids in the development of fine and gross motor skills essential for children's overall growth.

According to the guidelines provided by the American College of Sports Medicine (ACSM), children should engage in at least 60 minutes of age-appropriate, moderate to vigorous physical activity each week (ACSM Guidelines for Exercise Testing and Prescription, Lippincott Williams & Wilkins, 2006).

For more information or to make a booking, please feel free to contact them via email at csbiokineticists@gmail.com or give them a call at 076 408 7608. You can also visit Pearl Valley Gym and speak to one of their trainers in person.
