

A MESSAGE FROM THE ESTATE MANAGER

The New Year is now well underway, and HOA staff have been hard at work attending to numerous issues, from routine queries, administration, and maintenance to major long-term projects, with a few emergency situations thrown in as well!

As a community, we are experiencing an exceptionally hot, dry, and windy summer. Temperatures have been high, we have had little rainfall, and dam levels have dropped throughout the region. Concerns about fires and water occupy our thoughts as we collectively face the challenges of maintaining gardens, homes, and quality of life during this testing period.

We thank all those residents who show continued goodwill, support and appreciation for the work of the HOA staff and our essential service providers, including the security team and the landscaping staff. Many of these people worked throughout the festive season and routinely put in extra time after hours and over weekends in order to ensure that residents are safe and secure, and that the Estate functions as effectively as possible.

We continuously strive to improve service levels and response times wherever possible. Comments, feedback, suggestions and constructive criticism are all welcome and appreciated. With a population of over 2,500 residents (plus children, employees, visitors, contractors and service providers) and 739 residential properties (including 59 active building sites), our Estate is always active and continuously evolving.

There will no doubt be new challenges to address in the year ahead, but we look forward to achieving further progress and reaching new milestones for the Estate.

Kind regards,
Greg van Heerden

IMPORTANT REMINDERS

Children may not ride high performance electric motorbikes on the Estate

The revised Estate Rules relating to vehicles and road safety were published in November 2025 (copy available [here](#)). Despite this, the HOA continues to receive complaints about reckless and unsafe riding by children on motorbikes. Unfortunately, increased enforcement and penalties may have to be implemented to address the problem.

Be waterwise this summer - take proactive steps to avoid unexpected high water bills

The HOA has previously published a number of articles to raise awareness and to provide residents with tips and guidance for monitoring and managing their water usage (please read [here](#)).

Help preserve the Estate environment by properly disposing of waste

Cleaning up litter and waste materials dumped in the Estate is a growing problem. Please refer to the HOA's waste management guidelines [here](#).

Emergency Contact Details

The HOA's new contact number is **021 001 4419**, which is available during normal office hours (Monday - Thursday from 08:00 - 17:00, and Friday from 08:00 - 16:00).

Please note that the HOA can no longer be contacted via the Pearl Valley Clubhouse switchboard.

Residents wishing to visit the HOA in person may do so at the HOA offices located at **682 The Acres (Appaloosa Street)**.

For after-hours emergencies, residents are requested to contact the Security Control Room on 021 867 1201. In the event of a medical or ambulance emergency, please contact 021 982 8055 (press 1 for medical assistance) or 064 890 5274.

RESIDENTIAL EMPLOYEE VERIFICATION FORM SUBMISSION

Residents are kindly reminded to ensure that all residential employees complete and submit the Residential Employee Verification Form, as communicated in the notice circulated earlier this week. This process supports accurate security records and effective access control within the Estate.

Forms are available from Security Officers at the Pearl Valley Main Gate, or alternatively, a digital copy is available [here](#).

Completed forms, together with a copy of the employee's ID or passport, must be returned to the Security Office by *Friday, 13 February 2026*.

PEARL VALLEY GOLF SHOP

Beat the heat in style with these summer must-haves. Our custom PVG caps are perfect for comfort, shade, and a polished look while you play.

CAFE DE SOL

CS BIODINAMICISTS

Biodex testing

Isokinetic testing provides physicians with valuable information regarding strength deficits and muscle imbalances that may predispose a particular joint to further injury. Information obtained through the tests provides your therapist and your physician with objective data used in

monitoring your rehabilitation. This data is used to establish sound parameters to determine when it is safe to return to sport and to work.

For more information about this analysis, kindly send an email to csbiokineticists@gmail.com.
